

Health and safety clearance form

Declaration about decontamination and cleaning of equipment and components

To protect our personnel, we require all equipment and components with which our personnel come into contact to be free of biological, chemical and radioactive contamination. We will only accept such equipment and components when:

- The equipment and components have been adequately CLEANED and DECONTAMINATED.
- This form has been completed, signed and returned by an authorized person.

Please help us in assuring a safe, hazard-free work environment.
